

## COUPON CALENDAR

The following coupons will be  
valid in March—  
March 28: Meat M26.  
Note: Butter coupons 116 to 139  
expire on Feb. 28, 1946. Coupons  
still valid through March are sugar  
46-S1; butter R1 and R2; meat M1-  
M26.

## Horace Allen Heads Coleman's Newly Formed Board of Trade; Strong Slate of Officers Appointed

**Business And Professional Men Voice Enthusiasm  
For New Organization; Anticipate More Aggres-  
sive Community Leadership.**

A most enthusiastic meeting was held in the Grand Union hotel on Tuesday evening when approximately forty business and professional men gathered to organize a Board of Trade in Coleman.

Mayor Frank Abousaffy was appointed meeting chairman and after a few remarks pertaining to the purpose of the meeting called on S. C. Short for an address on the benefits to be derived from such an organization in town.

Mr. Short stated it was gratifying to see so many present and at the same time, he added, it was deplorable to note that there are still some, claiming the pseudonym of businessmen who have not found time to attend the meeting.

The speaker expressed the hope that "from the seeds sown at this meeting a mighty organization will grow, an organization that will help to protect and succour the life of the community against storms of depressions, an organization that will be a pride and joy in times of prosperity. Such an organization could and should be the very mainspring of the conduct of this community."

Touching on the two past attempts at forming Boards of Trade in Coleman he warned against letting off all their steam and enthusiasm in one mighty effort—he advised them to take it easy, organize carefully and well. A successful Board of Trade, he added, is a life time proposition and must be founded on solid ground.

Mr. Short endeavored to picture Coleman to-day if it had been possessed of a strong and virile Board of Trade during the past twenty years. It was his opinion that had a Board of Trade existed there would have been a hard-surfaced highway to the B.C. border, there would have been a beautiful park, possibly a civic centre which would attract young men and women to have remained in Coleman instead of leaving here for other centres, he pictured Coleman's main street as

a beautiful shopping centre if only effort during the past twenty years had been directed into that particular channel.

"Civic pride, declared Mr. Short, starts with the attitude of the merchants, the wage earner looks to the merchants to lead him in civic matters." He listed some projects which quite possibly could be accomplished by an energetic Board of Trade, these being a new station, a booster station, flying field, tourist trade, resort centre, etc.

He asked members to have faith in each other and realize that the other fellow has to live too and that quite possibly he is doing his best as he sees it. He concluded his address with a plea that members have faith in their organization, faith in their fellow man and particularly have faith in the fellow members of this organization.

All present were called upon to give their opinions towards forming a Board of Trade and not a dissenting voice was heard.

A nominating committee was chosen and after some deliberation returned with the following slate which were elected to office by the gathering:

Hon. President J. J. McIntyre  
Hon. Vice-Pres. Frank H. Graham  
President Horace Allen  
First Vice-Pres. Frank Abousaffy  
Second Vice-Pres. S. C. Short  
Executive W. Dutil, Jim Wilkie,  
Joe D'Appollonia and John Holyk.

The executive was given the power to appoint its own secretary and to add to its number.

In a brief address of acceptance president Allen stated that one will get out of the organization only that which he puts into it.

He pledged himself to devote much of his time in the interests of the new organization and remarked that Coleman would provide a fertile field for Board of Trade activity.

The next meeting will be decided by the executive and the date announced shortly.

## MRS. JOHN LILYA SERIOUSLY ILL

Mrs. John Lilya lies seriously ill at her east Coleman home as the result of a stroke suffered on Monday. On Wednesday her husband reported her as showing a little improvement.

Mrs. Lilya was alone in the house when she took ill and was found by her husband who returned from work late in the afternoon. She was in a critical condition and the doctor was called immediately. She lapsed into unconsciousness soon after but Wednesday morning was again showing interest in her home surroundings.

## FAILED TO SECURE LAUNDRY EQUIPMENT

Miss Mary Eglenksky who came here six weeks ago with the intention of establishing a laundry in Coleman has decided that it is well nigh impossible to set up a suitable laundry under present conditions.

Her greatest obstacle was equipment. She was unable to secure the proper equipment from any source. She had secured a building, which while not quite suited for the operation of a laundry, would have housed the laundry until a more suitable building had been obtainable.

## Research Men Heard, Dinner Meet In Pass

A dinner meeting in honor of Prof. E. Stanfield, Prof. W. A. Lang and J. Crawford, chief inspector of mines, was held at the Grand Union hotel, Coleman, on March 15, by the Rocky Mountain branch of the Canadian Institute of Mining and Metallurgy, attended by 12 members and 31 guests.

After a bountiful repast the chairman of the branch, D. B. Young, of Hillcrest-Mowhawk Collieries, Ltd., introduced the guests of the evening.

Prof. Edgar Stanfield, chief research engineer for the Research Council, in his address stated studies were being made to discover suitable laboratory tests for the explosibility of coal dust samples and the "smokiness" of Alberta coals. Tests were being conducted on various Alberta coals for use in automatic stokers. The "Hydrogenation" "Circulation" and "Briquetting" of Alberta coals were being studied with a view to increasing markets.

Prof. Lang  
Prof. W. A. Lang, of the University

## Steve Zak Passed Away At New Westminster

Died Last Thursday; Funeral Held Here on Sunday; Came to Coleman in 1929.

The death of Steve Zak, 42, occurred at New Westminster, B. C., on Thursday after an illness of two years. The body was brought to Coleman where a brother, Joseph, resides and the funeral took place on Sunday, services being conducted at Holy Ghost church with Rev. Father Leo Sullivan officiating.

Born at Niznia, Czechoslovakia, he came from that country direct to Coleman in 1929, gaining employment at McGillivray Creek. Two years ago he became ill and left for New Westminster where he passed away on Thursday. Two weeks ago

his brother Joe received a letter from him stating he was much improved in health and was expecting to come home in the near future.

Following the funeral Sunday which was attended by quite a large number of friends interment was made in Coleman Catholic cemetery.

## BOB PENMAN FUNERAL HELD ON SUNDAY

The funeral of the late Robert Penman was held on Sunday afternoon at one o'clock from the residence of Mr. and Mrs. J. Kinnear sr. on Second street. A service was held in the home, conducted by the Rev. Wm. Irwin. Interment took place in Coleman union cemetery a brief graveside service being conducted by Rev. Irwin.

Palbearers included Dave Robert, Wm. Roughhead, Robert Jenkins, Oliver Barringham, Teddy Barnes and Jimmy Barclay.

## Council To Put New Business Tax System Into Force; Maintain Effort To Secure Dentist Here

**May Have A Second Taxi  
Located Here; Question Of Having  
District Nurse Discussed.**

Regular meeting of council was held on Monday evening. Present Mayor Abousaffy, Councillors Cox, Dutil, Jenkins, Lowe, Ramsay and Wilson.

Frank Cocciolone was present to ask council's permission to operate a taxi business in town. Council informed him that it was doubtful if they could give or refuse him sanction. He was advised to make application for his license to Edmonton. He advised council that he had a priority for a new car and that he had been given a stand at the Empire hotel.

A letter was received E. G. Hansell, M.P. stating that his party was still pressing for a reduction in gasoline prices despite Mr. Illey's statement in the House that the government did not contemplate changing its recent decision of boosting Western Canadian gas price two cents per gallon.

Fire Chief Antle submitted his fire report. It revealed that five practises had taken place in recent weeks. The brigade had been called out to a chimney fire at the Emmermerson residence, but it had not been necessary to bring the fire hose into play. 1,000 feet of additional hose was recommended to be purchased at a cost of approximately \$1,200. Council will purchase the hose in four lots at various times throughout the year.

The question on whether to dispose of the old fire truck or keep it for town work was discussed. It was finally decided to call for tenders on it, emphasis being placed on the fact that the highest or any tender may not be accepted.

It appears that the present measles epidemic caused the question of a district nurse for Coleman and district to be discussed at Sunday's union meeting. The union asked one of its council representatives to bring the matter before council with the suggestion that the question be thoroughly discussed between the council, school board, and doctors and decide if it was feasible to engage a district nurse. Council was in favor of the suggestion and the Health committee was authorized to arrange a meeting with the other two parties.

No reply had been received from the dentist council had endeavored to interest in locating in Coleman.

A letter will now be sent the Dental Association asking that body to use its influence in getting a dentist to locate in Coleman.

A new system of taxing the business houses in town was explained by councillor Abousaffy. The new system bases its tax on the floor space in a building rather than on the stock. One of the unfairnesses which had arisen in the old system was that a firm may have had a heavy volume of stock on his shelves when the assessor made his call. As a result his taxes over the next five years period was high. His competitor might have been low in stock on the particular day the assessor paid a visit. His taxes during the next five years period would be low. By using the floor space system it rectifies these injustices and makes for a more balanced assessment throughout the town. From the few figures revealed it would appear that greater taxation revenue will result from the business section due to the new system. The by-law will be drafted by the mayor and finance committee during the next two weeks and notice of motion was given that the by-law would be presented at the next meeting for his first, second and third readings.

## Tenders Wanted

### TOWN'S OLD FIRE TRUCK

Tenders will be received by the Council of the Town of Coleman on the Fire Truck which has been in use in recent years and which last week was replaced by the new fire truck. Truck has a buick engine and still possesses the wooden platform used for carrying fire hose.

The highest or any tender may not necessarily be accepted.

Tenders are to be in the Town Office on or before Saturday Noon, April 6th.

G. LEES, Secretary.

## Schools Re-Open Monday, April 1st

Parents are hereby notified that the Coleman Schools will re-open on Monday, April 1st, after being closed as a result of Measles epidemic.

Dr. E. J. LIESEMER, M.H.O.

## CURFEW

At 9.30 p.m.

### To Start Immediately

All children aged 14 years or under must be off the street at that time unless in the company of their parents.

WILLIAM ANTLE, Chief of Police.

## April 6, Deadline for Dog Licenses

Owners of dogs within the Town of Coleman are hereby given warning that should they not have secured their 1946 Dog License by SATURDAY, APRIL 6th, their dogs are liable to be destroyed without further notice.

W. ANTLE, Chief of Police.

## Co-operation In Education

THERE WERE FEW ASPECTS OF LIFE which were not affected by the German conquest of Europe, and the task of restoring the occupied countries is an enormous one. One of the many urgent needs is for the re-building of educational institutions, which were often willfully destroyed by the Nazi invaders. In 1942 a conference of Allied Ministers of Education was called in London, when plans were discussed for providing assistance in restoring the schools and colleges of Europe after the war. Later, representatives from the Dominions of the British Commonwealth, India, the United States, Russia and China were invited to join the original organization, which had consisted only of members from Britain and nine enemy-occupied countries of Europe.

### Book Centre Was Set Up

Early in the present year this work was formally taken over by the Preparatory Commission of the United Nations' Educational, Scientific and Cultural Organization. One important project of this body is to provide books and periodicals for Allied national and university libraries. This work was commenced several years ago, funds being provided by Britain and the Allied governments. An inter-allied Book Centre was opened in London and already nearly half a million books have been collected, through book salvage drives, and as gifts from universities, cultural societies and interested individuals. At present two hundred thousand books come into the Centre each week, and the objective is to have two million books available for distribution at the end of this year. In addition, the problem of providing school equipment and scientific apparatus has been studied, as well as plans for the international exchange of teachers and students.

### May Contribute To World Peace

It has been recommended that this work be incorporated in an educational organization within the structure of the United Nations, and forty-four nations have already agreed upon a constitution for a United Nations' Educational, Scientific and Cultural Organization, the aims of which are "to contribute to peace and security by promoting collaboration among nations through education, science and culture, in order to further universal respect for justice, human rights and the fundamental freedoms which are affirmed for the peoples of the world by the Charter of the United Nations." It is possible that through this work a lasting and constructive contribution will be made to the cultural re-building of Europe, as well as to a greater measure of co-operation and understanding among the nations.

### A Colorful Figure

**British Who's Who Carries Biography Of The Aga Khan**

The Aga Khan is a prince above princes. His biography in the British Who's Who lists his honorary degree from Cambridge, his British honors and decorations, his chairmanship of the Indian Round Table Delegation of 1930 and 1931, his presidency of the League of Nations Assembly in 1937, his victories in the Derby, his eleven-gun salute and, almost incidentally, his religious role. He is, in fact, a descendant of Fatima, the daughter of Mohammed, and as such is believed by his followers to have divine attributes. These are not visible to Western eyes. Indeed, he does not parade them for the benefit of his cosmopolitan friends. On the worldly scale he is a character with two phases: an Indian leader who has tried to unite India's Moslems, and has done a good deal for the economic welfare of his Indian followers, many of them converted Hindus; and an international playboy of a type not so common as it used to be.—New York Times.

India's area is 1,576,000 square miles and contains more than 400,000,000 people.

**OVER 100 MILLION BOTTLES SOLD! VERY EFFECTIVE FOR MONTHLY PAIN**

Lydia E. Pinkham's Vegetable Compound DOES MORE than relieve monthly pain when due to female functional period disturbances. It also relieves accompanying weak, tired, nervous, cranky feelings—of such nature. Pinkham's Compound is a *sterile solution*—one of the most effective medicines you can buy to relieve such symptoms.

### Just Existing

**Some Homes Too Orderly For People To Live In**

We have had the experience, as has probably everyone, of going into houses in which real living is forbidden by the rules. These are the ones where there is a mania for cleanliness and order, amounting to a fetish. We often wonder what satisfaction they bring to the too-particular housewife. There are houses with parlors that are never open, even those where the front door is unused. Expensive rugs must not be profaned by the tread of shoes carrying the dust of the streets. There are bookcases filled with volumes that must not be handled for fear of smudges, curtains that must not be subjected to the fumes of tobacco smoke. The family exists mainly in the kitchen. It does not, of course, live. Under such a regime, real living is impossible.—Windsor Star.

### THE WAY IT WORKS

Going to the new restaurant for lunch, Jones ordered brown bread. The waitress brought him white. The second day he ordered brown and again got white. This went on for a week. Then he decided that the only way to get what he wanted was to order the opposite. So he started the new week by adding to his luncheon order: "And bring me some white bread."

"But," exclaimed the girl, "aren't you the gentleman who always has brown?"

First editor of the London News-Chronicle, which is celebrating its centenary this year, was the novelist Charles Dickens, 2065

## Price Control And Rationing Information

Q.—How many sugar-preserved coupons become valid in the month of April?

A.—Three of the new combined sugar-preserved coupons will become valid during April, 85 on April 4 and coupons 86 and 87 become valid on April 18. Pink sugar coupons numbered 46 to 70 expire on March 31.

Q.—Will we be receiving another ration book from the Wartime Prices and Trade Board?

A.—Ration book number six will be issued early next fall.

Q.—I heard over the radio while I was listening to "Soldier's Wife" program that we could obtain suggestions from some department of the government in Ottawa for extending butter. Where could I write to obtain these recipes?

A.—These recipes for stretching the butter allowance may be obtained by writing to the Department of Agriculture, Ottawa.

Q.—A friend of mine told me that she bought butter at a store without coupons, by promising them at a later date. Is this lawful?

A.—The law demands that coupons must be surrendered at the time rationed goods are purchased.

Please send your questions or your request for the pamphlet "Consumers' News" or the Blue Book in which you keep track of your ceiling prices, mentioning the name of this paper to the nearest Wartime Prices and Trade Board office in your province.

## GEMS OF THOUGHT

### BEHAVIOR

Men's behavior should be like their apparel, not too strait, or point de view, but free for exercise of motion.—Eaton.

To be always thinking about your manners is not the way to make them good; the very perfection of manners is not to think about yourself.—Whately.

Simplicity of manner is the last attainment. Men are very long afraid of being natural, from the dread of being taken for ordinary.—Jeffrey.

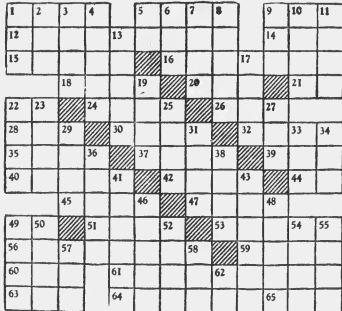

There are men whose manners have the same essential splendor as the simple and awful sculpture on the friezes of the Parthenon.—Ralph Waldo Emerson.

Right motives give opinions to thought, and strength and freedom to speech and action.—Mary Baker Eddy.

Nothing except what flows from the heart can render even external manners truly pleasing.—Blair.

Oyster shells in colonial days were used widely as blast furnace flux.

Answer To Last Week's Puzzle

## Conserve Feed Supplies

Saskatchewan To Develop Long Range Fodder Production

Steps will be taken this year by the Saskatchewan government to conserve feed supplies and develop a long-range program for fodder production in all deficiency areas in the province. It has been announced by Agriculture Minister I. C. Nallet.

Mr. Nallet said that the agriculture department wanted local groups to organize in order to create fodder reserves for at least one drought year. He said that "the possible use of vacant lands and irrigable areas for this purpose will be fully investigated."

A committee named by the minister of agriculture conducted surveys of two municipalities in 1945. These surveys dealt with grass land, water supplies, irrigation possibilities and pasture development. The studies will be continued in order to develop policies for land use.

WINNIEGIRL IN FILM LEAD

One year ago, blonde Dorothy Patrick was just another Little Theatre player in Winnipeg. Now she has been handed one of Hollywood's choicest acting plums—the role of Jerome Kern's wife in M.G.M.'s film biography of the late composer, "Till the Clouds Roll By." A former Powers model, she will play opposite Robert Walker.

## SMILE AWHILE

Jiggs Lent: "I see you are mentioned in one of the books just published."

Betty Manney: "Indeed! What book?"

Jiggs Lent: "The directory."

Joy Kait: "Is he really dumb?"

Bonny Ritchie: "Sure, he thinks a football coach has four wheels."

Joy Kait: "Isn't that silly? How many wheels has it?"

"Are you sure you can cut up your own meat?" asked Auntie.

"Yes, thank you," replied little Bobby politely, "I've cut up a good deal tougher meat at home."

"What makes you look so dirty?" asked the neighbor.

"Well," replied the little lady of five, "you gave my brother a dime yesterday to wash his face."

"Is there diplomacy in business, dad?"

"Certainly, my son. It's the art of never saying no but always taking a matter under advisement."

Vicar: "How did you get that black eye, Mrs. Green?"

"Well, sir, my husband came out of prison last Tuesday, which is birthday, and I wished him many happy returns!"

Young Man: "How about some old fashioned loving?"

Sweet Young Thing: "All right. I'll call grandmother down for you."

"Shirley, are you ready? Your boy friend's car is at the door."

"Yes, mother. I hear it knocking."

Sonny: "Dad, what do you call a man who drives a car?"

Dad (a pedestrian): "It all depends on how close he comes to me, my boy."

"Can you milk that cow?" the farmer asked the new land-girl.

"I'll try," she answered.

"Right. Go ahead and let's see what you can do."

Twenty minutes later the farmer returned. "Well, how did you get on?" he asked.

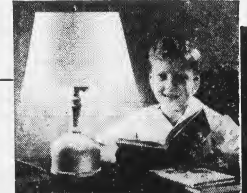

"Not so bad," replied the girl; "but wouldn't it have been better if I'd had a bucket?"

A waitress asked me what I wanted. "I feel like a sandwich," I said. She said, "Just give me your order. Don't blame me if the place is overcrowded."

A GOOD BUY

A Drake county resident considers the dollar he paid for an old clock at an auction in Greenville, Ohio, recently well spent. Inside the clock he found an ancient United States \$50 bill—and a \$5 Confederate note.

Few people in Hawaii speak Hawaiian in English is the language most widely used.

## BRIGHTER Homes are HAPPIER Homes

Enjoy the day-like brilliance of a Coleman Lamp in your home. It will make your home brighter, lighter and happier.

The popular Coleman "Regal" is a SAFE lamp. Fuel can't spill, flame can't creep up. It is an ECONOMICAL lamp, uses 10-cent mantles, burns 94% air, 6% fuel. It is a BRIGHT lamp, too, durable and attractive.

LAMP AND STOVE CO. LTD., TORONTO, CANADA

## TASK OF NEGOTIATING SELF-GOVERNMENT FOR INDIA IS NOW IN HANDS OF MISSION

NEW DELHI.—The British cabinet mission charged with the task of negotiating self-government for India arrived in New Delhi amid a barrage of statements from Indian political leaders ranging from threats of civil war to promises of full co-operation.

M. A. Jinnah, president of the Muslim league, declared his supporters "are prepared to shed our blood" if necessary in order to carve out a separate Muslim state "Pakistan" in India.

Valabhai Patel, member of the Congress party working committee, said that while the Congress party is prepared to go "to the farthest extent to meet the legitimate demands of minorities," the Congress "cannot concede the impossible demand for partition of India—the Pakistan demand of Mr. Jinnah."

The three members of the cabinet mission, Lord Patrick Lawrence, Sir Stafford Cripps and A. V. Alexander, were met by the Viceroy, Viscount Wavell.

Mohandas K. Gandhi, leader of the powerful Congress party, Jinnah and other principal heads of India's political groups have been asked to confer with the mission.

The Muslim league celebrated "Pakistan Day" in a demonstration of solid support for creation of a separate Muslim state.

Jinnah said: "Let me state in unequivocal terms that we are determined to establish Pakistan by negotiations, peacefully if possible, but if necessary we are prepared to shed our blood, if that is going to be the test and fire through which we are required to go."

B. R. Ambedkar, labor member of the Viceroy's executive council, said that the 60,000,000-strong community of "Untouchables" of which he is a member must be safeguarded from domination by caste Hindus.

### TAKING NEW POST

Noted Tank Officer Named To Succeed Field Marshal Montgomery

LONDON.—Lt. Gen. Sir Richard (Dick) McCreery, commander-in-chief of British occupation forces in Austria and a noted tank officer during the Second World War, was named to succeed Field Marshal Viscount Montgomery as commander-in-chief of the British army of the Rhine.

Lord Montgomery recently was named chief of the Imperial General Staff in succession to Field Marshal Lord Alanbrooke, who has held the position since 1940. He will assume this post in June. Gen. McCreery, who took over command of the British 8th Army in Italy late in 1944, and for a few months had the 1st Canadian Corps under him, will succeed Viscount Montgomery this summer.

### CARS FOR BERMUDA

HAMILTON, Bermuda.—Residents of this British colony—prohibited until the first of this year by law from operating private automobiles on the island—will be able to drive their own cars in Bermuda legally. Legislation permitting private use of vehicles was passed in the house of assembly by a 21-12 majority.

## TRADE MINISTER ANNOUNCES INITIAL WHEAT PAYMENT WILL CONTINUE ANOTHER CROP YEAR

OTTAWA.—Trade Minister MacKinnon announced in the commons the government will continue the present initial wheat payment of \$1.25 a bushel basis No. 1 Northern in store Fort William-Fort Arthur or Vancouver for another crop year up to July 31, 1947.

He said there would be no overall reduction on the deliveries of wheat during 1946-47, although "temporary delivery quotas will probably be used in the early part of the marketing season to distribute local elevator space as evenly as possible among the producers."

Delivery permit books again will be used. Payments on the participation certificates for the 1943-44 wheat crop will be started by the Canadian wheat board in June, with the 1944-45 barley equalization payments being made in May, he also announced.

Both payments will apply to the prairie provinces.

Payments on the 1944-45 Ontario wheat equalization fund will begin in May.

Mr. MacKinnon added: "While the accounting and auditing on these payments are well advanced, it is not possible at this date to announce the amount of each payment to be made. That announce-

### NOT EXTENDING DATE

U.S. Government Will Withdraw From UNRRA On December 31

ATLANTIC CITY, N.J.—The United States government has warned the world that it would have to feed itself after Jan. 1 when it definitely will cease all participation in organized relief.

Assistant Secretary of State William Clayton told the 47-nation council of the United Nations Relief and Rehabilitation that the U.S. will withdraw from UNRRA on that date.

The U.S. Clayton said, already has paid or earmarked \$2,700,000,000 for relief of invaded countries and will not finance further relief after Jan. 1. This government will not support any extension of UNRRA beyond the dates already set for its expiration, he added. Dates for UNRRA expiration are Dec. 31 in Europe and March 31 in the Far East.

Three-fourths of all money contributed or pledged to UNRRA has been paid by the United States, Clayton said. This has amounted to \$2,607,000,000.

Although the U.S. will withdraw from UNRRA, Clayton indicated that it was willing to contribute towards further relief through combined food boards and would allocate a fair share of grain, fats and other foodstuffs provided they were bought in an open market with funds for cash. The matter had already received lengthy and detailed consideration.

### FLIGHT A SUCCESS

Plane Returns Safely From Mercy Trip To Repulse Bay

OTTAWA.—An R.C.A.F. Dakota aircraft returned to Rockcliffe airport after dropping supplies and medicines for missionaries at the isolated outpost of Repulse Bay in far northern Canada.

Sqn-Ldr. D. (Doc) Kenny of Fredericton said the plane he piloted reached Repulse Bay five hours after refuelling at Churchill, Man., and that one ton of food and additional medicines were dropped from an altitude of about 500 feet.

### NOW ESTABLISHED

World Fund And Bank Will Soon Be Ready For Business

SAVANNAH, Ga.—In an atmosphere of apparent harmony and international verbal back-slapping, Treasury Secretary Fred M. Vinson closed the inaugural meeting of governors of the world fund and bank with a declaration that they are "now established and beginning to breathe as living organisms."

Thus the \$9,100,000,000 bank and \$8,800,000,000 fund were formally declared to be in existence. Actual lending and stabilizing activities, however, are still months away.

### AIR RACE PLANNED

VANCOUVER.—A special sub-committee of the Civic Diamond Jubilee organization was authorized to go ahead with arrangements for a London, England-to-Vancouver air race during the July 1-14 jubilee celebrations. Harry Duker, acting chairman of the executive committee, said standard air line passenger planes would be the contestants.

### ON MARKET SOON

WINNIPEG.—Redman, a rust-resistant wheat of high milling quality which recently was recommended for licensing soon should be on the market, Agriculture Minister D. L. Campbell says. He told the Manitoba legislature Redman was "the wheat to watch. It has all the good qualities."

CHURCHILL WOULD KEEP ATOM SECRET—Honorary degree from Fulton, Mo., college was occasion for Winston Churchill to call for a watch on Soviet expansion. Alliance of Britain and U.S. was advocated by Mr. Churchill to end wars. Missouri Governor Phil Donnelly, left, listens attentively while Winston Churchill talks earnestly to him after the speech.

### NO CHANGE SEEN

Increase In Gasoline Price For Prairie Provinces Will Remain

OTTAWA.—Finance Minister Ilsley said in the commons he did not feel further consideration could be given to representations against recent gasoline price increases in the prairie provinces.

The matter was introduced by F. S. Zaplatny (C.C.F., Dauphin) who asked reconsideration.

Mr. Ilsley said subsidies were still being paid to some extent on gasoline in the prairies and such subsidies were not paid in any other part of Canada. The matter had already received lengthy and detailed consideration.

Saskatchewan motorists have commenced paying an extra two cents per gallon on gasoline. The gasoline price increase also affects Manitoba and Alberta but not eastern Canada.

### CONFERENCE URGED

U.S. Senator Suggests Way To Re-establish Big Three Unity

WASHINGTON.—Senator Claude Pepper declared that "the United Nations Organization is not the way out of this web of fear"—that the Big Three must re-establish unity outside it through an unprecedented conference of their generals, workers, businessmen and statesmen.

The Florida democrat sharply assailed Senator Arthur Vandenberg (Rep., Mich.) as the leader of the "newest form of isolationism," exclusive of atomic energy.

Senator Pepper asserted that before entering the conference, the United States, with Britain and Canada, "should destroy every atomic bomb we have and smash every facility we possess" for making it.

NO REASON FOR ALARM IF "BIG THREE" ARE FRANK—EDEN. Alarmist view of relations between Russia and western democracies is unnecessary, if true reasons behind current difficulties are faced, says Anthony Eden, shown with dog.

SMOKE POURS FROM QUEEN ELIZABETH AFTER MYSTERIOUS FIRE.—Officials of the Cunard White Star Line, owner of the giant craft Queen Elizabeth, hinted that the fire which broke out aboard the liner was the result of sabotage. Scotland Yard investigated. Photo shows smoke pouring from the liner after the fire.

## CANADA IS URGED TO START IMMEDIATELY ON TASK OF BUILDING UP WORLD TRADE

MONTREAL.—Trade Minister MacKinnon said in an address here "the whole world is our market if only we have the enterprise to go out and get the business."

In a speech prepared for delivery before the Canadian Inter-American Association, he warned that "what is done in the immediate future will fix the pattern of our commercial relations for a long time to come."

Canada should follow four main principles. First, she should take a full share in supplying stricken peoples. Second, she must keep her place in the British market. Third, new markets must be found. Fourth, these objectives could be achieved if business was prepared "to give increased emphasis to the importance of export trade, no longer regarding it as a mere adjunct to the domestic market."

His department was working "earnestly and continuously to reduce the number and severity of export controls."

Goods sold abroad "should be of the highest possible quality." Finally, Canadian business should enlarge its trading representation abroad.

The present role of government in trade was "a temporary one." Its ideal "remains the establishment of freer conditions of world trade with full scope for enterprise of the individual trader."

His department was bearing an increased responsibility in working out the supply programs for countries in Europe and the Far East. This policy of expansion would be pushed forward with vigor.

"But we will fall short of our national objective if industry fails to aim high and does not pursue a vigorous expansion program of its own." Turning to Latin America, the minister said there was no doubt Canada's trade there could be greatly expanded.

### WORK FOR POLES

KIRK WALL, Scotland.—About 1,500 Polish soldiers are to be employed in removing war hazards from the Orkney Islands. They will clear mines, pillboxes and other anti-invasion obstacles.

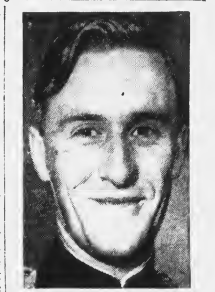

### REACHING PEAK

OTTAWA.—The labor department, reporting national employment offices listed 263,000 unemployed applicants last Feb. 28, said there were signs that Canada's reconversion unemployment peak had been almost reached.

## HOWE EXPRESSES OPTIMISM ABOUT CANADA'S EMPLOYMENT AND RECONVERSION PICTURE

OTTAWA.—Reconstruction Minister Howe said he had never been more optimistic about the employment and reconversion picture in Canada than he was today. Recently back from his first visit to the Pacific coast in some years, he told the commons: "I have never seen western Canada in a state of prosperity in which it is today."

Brushing aside pessimism as to future employment possibilities in Canada, he said that he feared industrial expansion was coming too rapidly for the amount of materials and manpower available.

ZABOTIN'S ASSISTANT HAD CHARGE OF AGENTS. Major Sokolov, commercial counselor for Russia in Canada, who was in charge of the Russian under-cover agents working in Canada, according to an Ottawa announcement. He was assistant to Col. Zabotin.

### WILL GATHER DATA

Pinless Drone Planes To Be Used In Bomb Tests

NORFOLK, Va.—The aircraft carrier Shangri-la is steaming toward the Pacific with a cargo of expendables destined to keep a rendezvous with the atomic bomb.

The expendables are pinless drone planes of the Shangri-la's "Ghost Helix" squadron of radio-controlled aircraft. They will brave the fury of the atomic cloud over Bikini atoll on May 15 to gather, with automatic recordings and sampling devices, data which science hopes will fill gaps in its knowledge of what happens when an atomic bomb goes off.

The drones will fly directly into the radioactive pillar of furious turbulence and intense heat which will rise from the burst into the stratosphere. Some, possibly all, of the drones will be lost. But the scientific devices they carry will float, and can be picked up after the test.

### HIDING IN JUNGLES

TOKYO.—More than 20,000 Japanese soldiers are hiding in jungles on Pacific islands, still unaware that the war has ended, the newspaper Asahi said. It based its estimates on stories brought home by recently repatriated soldiers.

"It seems to be that the expansion is coming too rapidly and that we shall face an insoluble problem of shortages of material as well as shortages of manpower when the program now under way comes into full production," said Mr. Howe.

"In total, close to 1,000,000 people have given up their wartime occupations since V-day," he said. "Over the same period the number of unemployed applicants registered in employment offices has risen from a low of 75,000 to a maximum of 263,000 at the end of February, a net increase of 188,000."

"It is therefore apparent that close to 800,000 persons have voluntarily withdrawn themselves from the labor market."

There were indications a considerable volume of employment still was to come from reconversion and expansion which had not yet been completed. In addition new establishments were coming into operation.

"With the unprecedented demand for consumption and investment goods in Canada, together with the urgent food and material requirements of foreign countries, the number still to be discharged from the forces should be readily absorbed, while a steady absorption of unemployed can be anticipated once the spring and summer demand comes regularly into play," he said.

The 220,000 men still to be discharged from the forces should be steadily absorbed and a steady reduction of unemployment could be anticipated in coming months. He had noted that some western employers had been unable to get the class of men wanted. The shift of men and resources for reconversion were "as difficult as mobilization" for war.

### COURSE FOR VETERANS

VANCOUVER.—Seven veterans opened Canada's first school of photography. The number of veterans taking the 11 months course will be increased to 45 during the next two months as facilities are expanded. The course is open to veterans from British Columbia, Alberta, Saskatchewan and Manitoba.

## NOTES AND COMMENTS

### MURPHY SPEAKS

It is not likely that the Crows' Nest Pass will soon forget one Harvey Murphy who, during his stay here, probably created more labor unrest than any labor organizer past or present. He left here for eastern Canada some years ago and is now an executive member of a union out at the west coast.

He was in Calgary two weeks ago and made the statement that Canada was soon to experience a wave of labor strikes from coast to coast, said strikes presumably to follow the pattern of strikes which have prevailed for the past several months in the States.

It is to be earnestly hoped that labor is not going to be misled by men such as Murphy. Canada, despite criticism from some quarters, has come out of the world conflict better prepared for re-conversion to peace time trends than possibly any country in the world. In the coal fields work has progressed fairly smoothly between employee and employer and as a result all have benefited, labor and management both. If this prosperity is to continue and if we are to conserve the future prosperity of the industry it can only be done by co-operation between labor and management.

Another point very often overlooked, but which ranks in equal importance with Management-Labor co-operation is the satisfaction which must be constantly maintained to the customer. A satisfied customer maintains his orders. A dissatisfied customer seeks other markets or other fuels. Experience following the last war was that many people turned from coal to other fuels and did not return to coal. Old timers will remember the slack times of the early 1920's that was entirely due to customers becoming dissatisfied over the loss and inconvenience due to unsatisfactory coal supply. Another instance can be related which only happened a few months ago. During the "muzz" strike the Red Deer area became short of coal. It could not secure sufficient coal from any source. It sought another form of fuel, gas. It has now got gas or is about to get it. Pass miners will be interested to know that Pass coal fired the locomotive boilers of the CPR engines that transported coal to the Red Deer area. That market is now lost, probably for all time. The reason can be written down to dissatisfied customers.

No business or industry can prosper without satisfied customers. The more vital the need for a commodity the more determined will people be to find a dependable source. The marketing of coal must be dependable if the industry is to prosper.

### A FLYING CLUB

It is quite possible that before many weeks Coleman may boast of

a flying club. The Journal has consistently hoisted the local airport and the fact that it has found favor by an experienced aviation man from Calgary who owns a commercial line as well as supplying planes to flying clubs is most gratifying.

Providing sufficient interest is shown at a forthcoming meeting a club will definitely be established here. Many of our local young people will be given the opportunity of securing their private pilot's license. What is more important, a successful flying club will build for itself a reputation which will spread far and wide and turn eyes towards this area as possessing a suitable air field and air-minded citizens. The more activity at the field the greater the maintenance that would have to be given it, thus making it a growing asset to the Crows' Nest Pass in general.

### CYCLISTS BECOMING NUISANCE

Cyclists riding on the sidewalks are making themselves a public nuisance.

More and more teen-aged boys and girls are riding along the sidewalks, especially in the evenings and are becoming a nuisance. Pedestrians are to be seen sidestepping the young cyclists and on more than one occasion have been hit by a machine. The sidewalks were not put down for cyclists but for pedestrians and these youngsters should be warned to keep their machines on the road.

Another point which is in the safety of the youngsters themselves to follow is that of lights or reflectors on their machines when riding at night. Very few possess either a light or a reflector and a motorist has very little chance of avoiding an accident if a dark object looms up in front of his car without warning of any kind.

### OUR BOARD OF TRADE

Coleman's Board of Trade has at last become a reality. It is being led by men of vision and aggressiveness and through their efforts coupled with the co-operation of the citizens in the community Coleman should benefit greatly.

The community has suffered greatly during the past several years because of the lack of a strong organization such as a Board of Trade to put forth the town's case to interested parties who might have been interested in establishing government or civilian offices here. Past years have seen the rightful leaders of community activity, the merchants, play a very negligible role in community leadership. Now the energies of all merchants and professional men as well as that of leaders in the miners' ranks will be pooled the community as a whole will reap the benefit.

### Letter To The Editor

Ottawa, 19th March, 1946.  
The Editor,

From letters appearing in the Press and others reaching this Department it is quite evident that there is a misunderstanding on the part of the Canadian public in regard to parcel post rates to other countries and restrictions on articles which can be shipped to the United Kingdom and Continental countries.

A chief criticism is that "exorbitant" postage rates are levied on parcels of food and comforts to Europe. As you undoubtedly realize, the problem of relief to countries in distress is not primarily one coming under the jurisdiction of the Post Office Department. Assurance can readily be given however, that this Department is both willing and anxious to do all in its power to help.

It might be explained that parcel post rates from Canada to other countries are determined by the cost of land and sea conveyance, as well as charges which must be paid for transit services provided by other Postal Administrations.

For example, parcel post to the continent of Europe is routed via the United Kingdom. In the circumstances, the British Postal Administration, as well as the country of destination, must be paid for their services in handling the parcels. In the case of parcels addressed to the

United Kingdom postage is shared to meet the delivery expenses of the United Kingdom Postal Service. Then our postal charges are designed to cover out-of-pocket expenses.

If authorities in other countries are able to make reductions in their charges for handling our mail the Canadian Post Office will promptly pass along such reductions for the benefit of the Canadian mailer.

The restriction placed on the contents of parcel post, i.e., the 7 lb. limit for food, and of not more than 2 lb. of any variety to the United Kingdom did not originate with the Canadian Post Office but was imposed by British authorities in the light of their own domestic conditions. One reason being to protect their rationing system, also it is claimed that morale would be adversely affected if there were no restrictions in foodstuffs from overseas and the privileged few with friends in Canada were able to receive unlimited quantities while their neighbors were strictly rationed.

The feelings of Canadians with friends overseas can readily be understood but they can rest assured that the Post Office is seeking to afford the best possible service and at the lowest possible cost under current conditions.

Yours sincerely,  
(Signed)  
W. J. Turnbull  
Deputy Postmaster General.

## Interest Mounts In Proposed Flying Club

Mr. McRitchie, Chinook Flying Service, To Address Meeting Here Next Monday Night.

Interest in the proposed Flying Club to be organized by the Coleman Lions' Club and Chinook Flying Service has led to many enquiries regarding the aircraft to be used.

Mr. A. L. McRitchie, of the Chinook Flying Service, will use the post-war model of the popular Aeronca Champion, a two place high wing cabin plane. The aircraft is small and light which makes it ideal for elementary training. Wing span is only 35 feet, while the total weight is only over 1200 pounds. Powered with a 65 Hp air cooled motor the craft obtains a speed of 100 miles per hour and can climb at the rate of 500 feet per minute.

One of the finest features of this craft as an elementary trainer is its exceptionally slow landing speed of 35 miles per hour, a factor which lends itself to use in short runways. A full capacity of 14 gallons allows a cruising range of 270 miles, or just under 20 miles to the gallon.

This newly designed Aeronca has a large roomy cabin with deep comfortable seats. Large windows and windshield give unusually fine vision, an important factor in flying. The comfort of the pilot and passengers has been taken into careful consideration. Noise and vibration have been reduced to a minimum, and heaters are standard equipment.

You'll find the Aeronca Champion the easiest flying, most comfortable sport plane of to-day.

Mr. McRitchie will visit Coleman and address a meeting of all interested in the Grand Union hotel at 8 p.m. on Monday, April 1.

## CO-OPERATION OF NATIONAL EMPLOYMENT SERVICE WITH REHABILITATION COMMITTEES

Hon. Humphrey Mitchell, minister of labor, has announced that steps have been taken to tie in more closely the relations of the National Employment Service with the Citizens' Rehabilitation Committees across Canada.

Following consultations with Hon. Ian MacKenzie, Minister of Veterans Affairs, directions were sent to the Rehabilitation Committees, informing them that the officials of the National Employment Service would be available at all times for the purpose of assisting the Committees in their work, and that officers from the National Employment Service would be available to serve on the Committees as members. In most cases local office managers have been named to Committees, and where this course has not been followed a close liaison has been established.

Committees and the national employment offices are making strenuous efforts to assist ex-servicemen and women back to civilian employment. It is important that the activities of these two institutions should be coordinated as closely as possible. Through the addition of National Employment Office Managers to the Committees a much closer tie in of the efforts of those directly responsible for the employment placement of veterans will be accomplished.

On the subject of the relationship of Employment Office Managers to the Committees, Mr. Mitchell has sent the following letter to the Chairman of each of the 700 local Committees:

The satisfactory reinstatement in civil life of those who, with considerable personal sacrifice of time and opportunities, served in our armed forces is of vital importance.

They need advice on personal problems, information on the Government's vocational training programme and about other rehabilitation provisions, also help in finding jobs and accommodation.

As it is obviously essential that the Department of Labor and the Department of Veterans Affairs should work in close co-operation, it is hoped that your committee will welcome the manager of the local National Employment Office as a member. These managers have instructions to attend meetings and give your committee assistance in every way.

It is my desire that our employment service shall be brought to the highest possible degree of efficiency. Your committee can help us to attain this objective by urging employers to keep the local office informed as to their needs, and by encouraging veterans to keep their registration up to date.

It should not be overlooked that the employment system is national in scope and, through our clearance system, vacancies all over Canada become open to those who may be out of work in places quite remote from where the jobs exist.

The policy of our employment offices is to give priority to veterans who have had overseas service, which is of distinct advantage to them. In addition, the Reinstatement in Civil Employment Act is administered through these offices.

Your committee could be of valuable assistance to us by endorsing and publicizing an employer relations plan through which employers would be shown the advantage of hiring ex-servicemen and women in anticipation of improved industrial and business conditions which are sure to come. An extra employee or two here and there would mean much on a country-wide scale.

We are going to solve the problems which face us. A nation which did so much in the years of war can do equally well in years of peace. Co-operation of all the citizens now, however, will serve to bridge the river of transition more quickly.

With best wishes to all your members and many thanks for your splendid help.

Yours sincerely,  
(Signed) Humphrey Mitchell

## MR. BERCUSON SPEAKS ON ADULT EDUCATION

"Personalities in the news" was the subject of a talk given by Leonard Bercuson, of Edmonton, secretary-treasurer of the Alberta adult educational association, at a meeting of the Blairmore Lions Club held last week. Mr. Bercuson asked his listeners to provide the names of outstanding persons they would like to hear described. Then he presented short sketches of each of the persons requested: Col. George Drew, Leonard W. Brockington, John L. Lewis, Geo. Bernard Shaw, Joseph Stalin and Clement Attlee.

Later, Mr. Bercuson spoke informally to a number of representative Blairmore citizens on the purposes and activities of the association he represents. Formed in June, 1943, the Alberta adult education association is composed of representatives of thirty provincial organizations interested in offering educational opportunities to those who have already left school. Some of the members of the association include the IOOE, the Alberta school trustees association, the Alberta women's institutes, the home and school federation and the Alberta federation of labor. Since its inception, three main types of activities have been encouraged. First, adult classes have been organized in a number of Alberta cities and towns, among them being Wetaskiwin, Wainwright, Edmonton, Lacombe, Medicine Hat and Calgary. These classes offer a wide variety of subject matter. In Edmonton, for example, more than 2,500 persons have enrolled during the last two years in some thirty different courses, among them current history, handicrafts, psychology, English for non-English students, and health.

Along with the extension department of the university the adult education association has stimulated interest in the national radio discussion programme, the citizens' forum. Mr. Bercuson briefly outlined how study groups are organized in connection with this programme and how simultaneously hundred of study circles listen to the debates broadcast and then carry on where the programme leaves off with their own discussion.

Thirdly, the many localities in the province which are planning to build community centres for the fullest development of recreational and leisure-time activities are receiving assistance from the association in the form of booklets and pamphlets. These describe outstanding examples of community centres in various parts of this continent.

Mr. Bercuson expressed the wish that some of these efforts be attempted in Blairmore. Those present felt that there was a good chance of success and an informal committee was set up to consider the possibilities.

## UNEMPLOYMENT INSURANCE FUND

From February 1, 1946, the date the Unemployment Insurance Commission assumed responsibility for payment of Out-of-Work allowances, until March 8, a total of \$128,383.98 has been paid out to 3,106 veterans, men and women, in Manitoba and western Ontario. C. R. Hudson, assistant regional superintendent Winnipeg, disclosed on Tuesday.

In the same area, for a four-week period ending February 12, 10,454 persons received unemployment insurance benefit, representing a total disbursement of \$441,936.89. This compares with 2,313

beneficiaries and an expenditure of \$77,338.06 during a similar period last year.

For the first time since the establishment of the Unemployment Insurance Fund, the total paid out in benefits exceeds the amount of interest accrued on investments. From July 1, 1941, to January 31, 1946, over \$23,000,000 was disbursed in benefit payments, while revenue received from the Fund's investments amounted to slightly more than \$17,000,000.

The total balance in the Fund as at the end of January, 1946, stood at \$318,376,870.40.

## Anglican Church National Appeal

The Very Rev. R. H. Waterman, BA, BD, Dean of Niagara, organizing secretary for the Anglican Advance Appeal. An outstanding figure in the Church of England in Canada, typifies the militant spirit of a postwar church in the fight for peace. A towering figure of a man, genial, approachable, but fearless campaigner, he tackles with a realistic attitude the problems of rebuilding the peace that face the church in the aftermath of war.

Born in the rectory of a small parish in the Diocese of Ottawa, he grew up in a church atmosphere. His father, "Waterman of Carp," himself a fearless champion and well known figure of the Canadian church, doubtless had much to do in laying the foundation for young Waterman's mission in life. He attended the public and high schools in the parishes in which his father served, and in 1911 entered the University of Bishop's College, Lennoxville, P.Q., as undergraduate in arts and theology. He graduated in arts in 1914 and entered upon theology, but was drawn to take a part in the conflict of World War I and enlisted in the ranks in February of 1915. He saw action in France and Germany with the Fifth Canadian Mounted Rifles, and returned to Canada in 1919 to re-enter Bishop's College. Receiving the Licentiate in Sacred Theology in 1920 he was appointed to a parish in the Ottawa Diocese. In 1937, after serving in Pembroke and Smith's Falls, he went to Hamilton as rector and canon of Christ's church cathedral and the following year was made Dean of the Diocese by the Bishop of Niagara. He is now on leave of absence from his bishop to devote his full time to organizing of the Anglican Advance Appeal within the Church of England in Canada.

He has, since September, 1945, travelled some 20,000 miles across the Dominion and visited 26 of the 27 dioceses. The results of his work in the church are strongly evident and the impetus she has received will carry her forward towards and beyond the week of May 12, when with a spirit of rededication and thanksgiving her people will launch a campaign to raise \$4,300,000.

Advertising acts as a tonic to any head of business enterprise—

Dirty, thinned-out oil means incomplete lubrication of bearing surfaces, excessive wear and costly repairs—sooner or later. Dirty oil causes deposits of sludge, carbon and varnish in the engines of your truck and tractor, with resulting loss of power. Dirty oil not only "gums up" your engine, but its impurities give it corrosive properties—it may start to eat into metal surfaces. Then you're headed for trouble.

Tough, heat-resistant Marvelube gives real protection. It keeps your engine free from damaging deposits. For a lively, smooth running engine, fill up with Marvelube now. Marvelube is the quality lubricant that gives trouble free performance.

## RENEWAL OF UNEMPLOYMENT INSURANCE BOOKS

**To All Employers:**

All Unemployment Insurance Books for the year ending March 31st, 1946, must be exchanged for new books.

New Insurance Books for the fiscal year 1946-47 will be exchanged by the Local National Employment Office in your area for expired Insurance Books.

Protect the benefit rights of your employees by sending in their expired books properly completed on March 31st.

(There are severe penalties for failing to make Unemployment Insurance contributions for your insured employees and for failure to renew the Insurance Books as required.)

### TO MAINTAIN CEMETERY BEAUTIFICATION PROGRAM

It is anticipated that an increased sum over last year will be given by council for cemetery beautification. It is planned to make a roadway via Park Terrace and past the Boulton residence to both cemeteries. In addition to the roadway it is expected a balance will remain whereby some beautification can be done in both the Catholic and Union cemeteries.

Councillor Fred Cox, who is in charge of the beautification plan, asks that persons desirous of beautifying a grave in either cemetery, but fails to have the necessary time, need only contact him and he will make it his business to employ a needy citizen to do the work and once it is completed an invoice will be sent out by the town secretary.

In this manner additional revenue is found with which to promote the campaign.

Spring is officially here, March 21, and it is the hope of Councillor Cox that citizens who have loved ones in either cemetery will get out and attend to the graves.

### RALPH RYZNAR, 8, WON FIRST PRIZE IN PROVINCIAL COMPETITION

A clever 8-year-old, fourth-grade youngster, Ralph Ryznar, of Central school, covered himself with honor last week when he won first prize of \$15 in war savings certificates in a provincial competition sponsored by the National Health and Welfare Department, Nutrition Division.

The competition was sponsored for the purpose of providing school children with a solid foundation in the principles of nutrition, with a view of making them and keeping them healthy Canadian citizens.

The contestants had to draft a "place mat" of any material. Ralph chose paper, on which he had to illustrate the five major food groups: milk, fruit, vegetables, cereals and bread, meat and fish.

His parent and teacher, Miss Helen Dibblee, are particularly proud of Ralph's achievement, and Ralph is just a wee bit proud of himself, too. After all it isn't every day a fella pulls down \$15 in a contest against all comers in the province's urban centres.

### MR. AND MRS. C. MACQUARRIE HONORED ON 30th WEDDING ANNIVERSARY

On Saturday, March 16, Mr. and Mrs. Charles MacQuarrie, of Coleman, were honored at a dinner party at the home of Mr. and Mrs. Sydney Emery. The occasion was their thirtieth wedding anniversary.

The tables were decorated with shamrocks, spring flowers and a two-tier wedding cake topped with a decorated wine glass containing mauve sweet peas. The party opened with a lengthy, well-worded toast made by Syd Emery to the honored couple. Following a hot turkey dinner, both modern and old-time dancing was enjoyed.

During the evening Mrs. James Gaudette sang beautifully two Irish numbers and led in a sing-song. Mrs. W. McInnis, of Bellevue, led in many Gaelic songs; several gay bagpipe selections were rendered by Mr. James Moore, and Mr. James Gaudette delighted everyone with his clever tap-dancing.

Mr. W. McInnes entertained with violin selections.

The party closed with "For they are jolly good fellows."

Mr. and Mrs. Allister MacQuarrie, of Calgary, and Mr. and Mrs. Dunford, of Lethbridge, were present for the celebration.

### Returns Home

FRANCIS MARCONI

son of Mr. and Mrs. Jack Marconi sr., of Main street. "Frenchy" enlisted soon after the outbreak of war and has been overseas for many years. Prior to enlisting he was one of Angelo Gentile's star pitchers.

He arrived home last Friday morning and expects his English bride to follow him to Coleman within the next two months.

### Miscellaneous Shower

A miscellaneous shower was held in honor of Miss Hazel Davis in the I.O.O.F. hall on Tuesday evening.

Hostesses included Mary Unowlski, Helen Coccione, Ann Melusik, Celia Rina'di, Pauline Vasek, Dora Seaman, Mrs. Carmelo, Mrs. Hlucka and Ann Vasek.

Games were played, whist winners being Mrs. Agnes Vincent, Florence Root, Mrs. Bessie Park and Mrs. Mary

Clarke. The soap contest was won by Mrs. Fred Guerard.

Following a dainty lunch the no guest was presented with many beautiful and useful gifts for which she expressed her thanks.

### WE'RE SPEAKING OF

*Your Tomorrow, Too...*

Thousands of Canadian boys—sons, brothers, husbands—are returning from the wars—returning to what promises to be a happy tomorrow... a tomorrow that many gave their lives to bring about.

A tomorrow that may be held back if immoderate or unessential spending brings about inflation... if our desires are not confined

to temperate limits... if the many strange ideas and philosophies that are with us today are not carefully considered and moderated to suit our needs and way of living.

The real enjoyments and full pleasures of gracious living are possible only to the man who practices moderation—in everything he does.

The House of Seagram suggests that we think of tomorrow—and be moderate in all we do.

**THE HOUSE OF SEAGRAM**

*Men who Think of Tomorrow.... Practice Moderation Today!*

### Jobs Follow Organization

**But Employers and Workers Must Assist**

During the war organization of manpower was made possible through co-operation of employers and workers.

This co-operation is no less necessary to assist in organizing the employment market during the present critical period.

Some manpower controls still remain. These are still law. They are aimed at assisting in organizing the employment market.

Remaining controls are designed to help employers and workers—and actually require only minor assistance from the public.

**YOU ARE URGED TO COMPLY WITH THE FOUR CONTROLS WHICH REMAIN:**

- 1—Employers MUST notify the National Employment Office of any need for workers, as soon as that need is known.
- 2—Where employers engage workers outside the National Employment Service they MUST notify the nearest NES Office within three days, that an employee has been engaged. (Form NSS 312 is provided for this purpose.)
- 3—Unemployed workers seeking employment MUST register with the National Employment Office if unemployed for seven consecutive days.
- 4—Generally speaking, any employer or employee MUST give seven days' notice to the other party of any intention to terminate employment. (Form NSS 120 is still required.) Exceptions may be learned from the nearest NES Office.

The partners to industry—employers and employees—should help the National Employment Service to promote a high level of employment by complying with these simple rules.

Only with public support can an employment service give full assistance to the community.

Make full use of the Local Office of the National Employment Service. It is there to serve your needs, and those of the entire Community.

# Council Budgets For Deficit Of \$1,371.73 In 1946

## Town Mill Rate Will Remain The Same; Town Fire Truck Cost \$2,000

Finance chairman John Ramsay laid the town council's budget for 1946 on the table at the regular meeting of the council on Monday evening. It revealed that it was planned to spend \$18,563, against an income of \$17,191.47, thus budgeting for a deficit of \$1,371.73.

The cost of the new fire truck is

budgeted for in the estimates and is included in Fire Expense. The additional \$200 is to take care of monies paid to the fire department during the year.

The only other increase of any consequence is a \$1,000 boost given in the item of police wages.

### Estimates for 1946

### DIED IN CALGARY

Charles Davis, 22 injured in a swimming accident here two and a half years ago, died in a Calgary hospital on Thursday, Mar. 28.

### Five Plays Entered In Drama Festival

Excellent Entertainment; Ticket Sale Brisk; Patrons Asked to Get Tickets Early.

Thursday next, April 4th will be the opening night of the Coleman Lion's Drama Festival. Mr. Sidney Risk's adjudication following the second night.

On the third night will be the new feature, the audience night. The plays appearing each night

then, will be as follows:

Thursday, April 4th: "Nancy Hanks, Bandwoman"—Coleman Drama Club—Jim Allen Jr. director.

"A Marriage Proposal"—Blairmore Players—Mrs. Fleming director.

"The Great Dark"—Bellevue School Players, Rev. Irwin director.

Friday, April 5th: "The Giants Stair"—Coleman Players—Mrs. A. F. Graham, director.

"Funeral Flowers for the Bride"—Cardston Lion's Drama Club—Mrs. N. Peterson director.

Saturday, April 6th: Audience Night, with Mr. Risk.

With the Calgary and Lethbridge Alberta Drama League Festivals chosen, all those interested in drama are looking forward to the choosing of the winning play in Coleman next week.

## Mr. and Mrs. H. A. Shayler Honored At Crows Nest

Will Leave This Week For New Home at Victoria.

On Friday evening a farewell party and dance was held in the Crows' Nest school house in honor of Mr. and Mrs. H. A. Shayler, who leave this week for Victoria, B.C. Chairman for the evening was Mr. Bill Turner.

A number of railwaymen were present from Lethbridge through to Cranbrook. Mr. Shayler was presented with a purse, enclosed being a one hundred dollar bill and a red silk handkerchief on which were written the names of all the people and their donations. Mrs. Shayler was presented with a beautiful

bouquet of roses by Mrs. Bill Turner.

Speakers during the evening were Mr. Turner, Mr. Sherring, of Frank, and Mr. Harry Andrews, who is to be the new locomotive foreman at Crows' Nest, succeeding Mr. Shayler who is retiring on pension from the service of the Canadian Pacific Railway.

Lunch was served at midnight and dancing was enjoyed until the wee hours of Saturday morning.

## Fish And Game Assoc. To Hold Meeting Friday

2½ Hours of Fish & Game Colored Film to be Shown; Andy Dow to Give An Address On Big Game.

On Friday evening at 8 o'clock in the Grand Union hotel Coleman Fish & Game Association will hold an important meeting and members and friends are asked to make a determined effort to be present.

Mr. Earl McGinniss, well known big game guide will be at the meeting to show a film, in color, of fishing and big game hunting. It is expected the film will take 2½ hours to run and is intensely interesting. Following the films Andrew Dow will give an address on big game. Andy has been a big game hunter in this district for a great many years and knows his subject well. Following Mr. Dow, Jim Kerr, President of the Crows' Nest Pass Fish & Game Association and secretary of Coleman Fish & Game Association will give a talk on matters pertaining to fishing and hunting in the Pass. It is hoped that plans might

materialize to raise pheasants in the Pass this spring. Some sportsmen will no doubt have to volunteer for this particular job.

Business, unfinished from last fishing season, will have to be cleaned up at this particular meeting. Another important point that will be discussed is the government's announced intention of placing many thousands of fingerlings in provincial streams.

### LOCAL NEWS

Mr. Joe Lipovski motored to Calgary on Tuesday to attend the Calgary-Winnipeg Allan Cup hockey game. He was accompanied on the return trip by Mrs. Lipovski and children who had been the guests of Mrs. Lipovski's parents, Mr. and Mrs. Bielsch for the past two weeks.

Mr. and Mrs. Jack Wilcox, of Medicine Hat, spent the week-end as guest of Mr. and Mrs. L. A. Caroe. They attended Lorne's wedding in England in 1943. Mrs. Wilcox is an English bride coming from Croydon.

Mr. Ernie Lipstock spent the week-end at Lethbridge.

## Ginger Ale

CALGARY BREWING & MALTING CO. LTD.

WORLD HAPPENINGS  
BRIEFLY TOLD

One of the strangest air cargoes ever landed at Dorval airport arrived in a special plane bringing \$65,000 worth of live chinchillas to Montreal.

The last of Canada's 103 surplus coveys—sassy, tubby little craft that plagued the Nazi U-boat packs—have been sold by the War Assets Corporation.

The Soviet Union intends to increase its cultivation area this year by 20,500,000 acres, as part of the new five-year plan, Moscow radio said.

Over 1,000 "splendid types" of Japanese women, all over five feet tall, responded to a Metropolitan police call for 50 pillowcases, the newspaper Maunichi Shimbun said.

A bust of Gladstone is to be removed from the town hall at Kilkenny, Eire, because councillors believe no shadow of a former British prime minister should fall on the assembly rooms.

A police school for recruits for the Gibraltar Police Force, has been opened. The recruits are trained on the syllabus of instruction for candidates for the Metropolitan Police in the United Kingdom.

Sir Alexander Fleming, discoverer of Penicillin, has been awarded the Harben Gold Medal for 1946 by the British Royal Institute of Public Health and Hygiene for "eminent services rendered to public health."

A ceremonial scarf for King George, together with a letter containing Tietan's congratulations on the Allied victory, was received by Viscount Wavell, Viceroy of India, from the leader of a Tietan goodwill mission.

## Applies Anywhere

Many People Eat Too Much Even When Food Is Plentiful

The Buffalo Courier-Express says: While the request by President Truman's Famine Emergency Committee for a reduction of 40 per cent in wheat consumption and 20 per cent in fats may sound rather drastic, the fact remains that this is the best fed nation in the entire world and that millions of Americans eat daily much more food than they require. To such an extent is this true that medical men are forever warning against excessive eating. Thus millions of Americans, who have previously been eating more food than they need, will, if they co-operate in the campaign against starvation in Europe and Asia, enjoy much better health. The reduction in the weekly food bill is not a factor lightly to be disregarded either. Less expenditure will mean more money in the bank.

WEEKLY RATION FASHION  
for a twosome

SUN.	MON.	TUES.	WED.	THU.	FRI.	SAT.
Upside Down Meat Loaf	Sausages	Oyster Stew	Meat Patties	Steak & Kidney Pie	Egg Scallop	Lamb Chops
Group C	Group D	unrationed	Group B	left-over (kidney unrationed)	unrationed	Group C
1 lb. tokens	1 lb. 3 tokens		1 lb. 5 tokens			1 1/2 lb. tokens
2 tokens remaining.						

An upside down meat loaf is an eye-appealing and plate-pleasing means of affording a party touch for week-end hospitality without infringing too greatly on your week's ration. To achieve such a goal, line the bottom of a greased baking dish with slices of cooked sweet potato, lightly sprinkled with brown sugar. Top with your very best mixture of ground meat (veal with pork or beef makes a good combination) artfully seasoned and strategically extended with crumbs and eggs. When baked, turn upside down on serving platter and garnish with some vegetable greenery. As fat saved from meat cookery assumes a real significance these days, sausages are suggested for Monday to help you balance supply and usage. From the pound purchase you will be assured of a tasty dinner, as well as some extras to add a spark to a breakfast menu. While there's still an "R" in the month, an oyster stew will fit well into the meatless day pattern of Tuesday. For complete satisfaction accompany it with crisp crackers, strips of raw carrots, turnip and celery; and follow it with that favorite

## Experimental Farm

Alberta Farmer Going To Establish One In Ethiopia

While Emperor Haile Selassie, of Ethiopia was in forced exile in England during the war he learned to enjoy the fruits and vegetables grown on Canadian farms. As a result, Howard Thompson, Markerville, Alberta, farmer has been commissioned to set up an experimental farm for the Ethiopian government in that country.

Mr. Thompson's brother, a missionary in Ethiopia and friendly to the emperor, persuaded him to take the job. At present he is busy purchasing nursery stock in the Bowden area. Stock already purchased includes garden seeds, trees, bushes, shrubs, strawberries and other plants. The seeds for Ethiopia will be sent in sealed containers to ensure dryness and, along with the nursery stock, will go by ship to Cairo and from there will be flown to its destination.

Mr. Thompson has just returned from a short trip to Ethiopia, and plans to take his wife and family back with him. His contract is for three years and his family will have to take clothing for that time. Finding the country much like Alberta, Mr. Thompson plans to settle there permanently.

The Ethiopian government have given Mr. Thompson a half section of land in Ethiopia and \$8,000 to buy the necessary nursery stock, a tractor and other farm implements.

## Wants To Make Tests

Man Has Idea His Invention Would Defy Atomic Bomb

Jean Lussier, who went over the Horseshoe Falls in a rubber ball on July 4, 1928, announced that he would like the United States navy's permission to test a new type rubber ball against the atomic bomb. Lussier has started plans to interest naval authorities in his newest proposal. It is to house rabbits with food enough for a week in the smallest of three specially designed concentric rubber balls. He said the atomic test device would consist of balls 12 feet and 5 feet respectively in diameter. He plans to line each space except the inner rabbit quarters with protective lead, asbestos and cork.

## BUILT IN ONE DAY

Prefabricated houses, consisting of four rooms with wooden floors and tiled roofs, now are being produced by a building firm in Nairobi, Kenya, to help solve the African housing problem. They cost about \$150 (\$720) and can be erected in one day.

The sun loses 4,000,000 tons of mass per second, a speck of dust in relation to its total mass of two billion billion tons.

EX-KING OF YUGOSLAVIA AND SON WHO LOST THE CROWN—Even though he hasn't a throne any more, Mr. Peter Karaogevitch, once king of Yugoslavia, is hoping his son will some day wear the crown he lost. The young prince Alexander, gets a smile from his parents. Yugoslavia, under Tito, was declared a republic.

## Operation Elephant

Mobile Anti-Aircraft Battery Was Intended To Guard Churchill

Macdonald Hastings tells this story in the Picture Post:

From the time he became Prime Minister it was manifest that Mr. Churchill's own safety was a major factor in Britain's defence. So looking after him was regarded as a military operation, and it was called "Operation Elephant" the elephant being the Prime Minister.

One of the features of "Operation Elephant" was a mobile anti-aircraft battery which used to accompany the Prime Minister wherever he went. Churchill took immense pride in this anti-aircraft battery. He used to call it, to the indignation of the officers, his personal flak, and when he went away for the week-end to the country he always insisted on having one of the guns mounted outside the front door so that he could display it proudly to his guests.

As a personal defence the anti-aircraft battery was a failure. The original arrangement was that if hostile aircraft came within 30 miles of the Prime Minister the guns would be manned and Mr. Churchill and his staff were to go to the air raid shelter. But it did not work out that way. As soon as the air raid alarm sounded, far from going to the shelter, the Prime Minister grabbed his field glasses, raced up the stairs and took his stand in the most exposed position on the roof.

Up there he insisted on a complete plot of the raid and was always extremely disappointed if his personal flak did not start firing. So finally, unknown to the Prime Minister, it was decided that it was safer not to sound the air raid alarms at all.

The Japanese invented the folding fan in the seventh century.

## Loss Felt Keenly

London Times Pays Fine Tribute To Hon. Vincent Massey

The Times of London, in a lengthy eulogy, referred to the retirement of Rt. Hon. Vincent Massey as High Commissioner in London, as the loss to British public life of an eminent and popular figure and called him "The father of the Canadian Diplomatic Service."

"During more than half of his term of office, Great Britain and Canada jointly were engaged in a supreme struggle for the defence of their common ideals, and it fell to Mr. Massey to become head of the Canadian community in and out of uniform that quickly formed on British soil."

The Times said Mr. and Mrs. Massey both had labored constantly and successfully to promote the welfare of Canadian men and women on war service in the British Isles and had entered fully into the life of Britain in peace and in war.

The newspaper described Mr. Massey's war speeches as an inspiration in dark times which would be remembered as a Canadian interpretation of the faith by which Englishmen and Canadians are united.

## OUTLOOK OBSCURE

Although it is hoped Canada's domestic butter ration will be increased from four to six ounces by May 1, the possibility of improvement in the overall situation remains "fairly obscure," O. W. Rodemer, administrator of ration administration, Montreal, said in an interview at Vancouver. Whether there will be an improvement depends upon the nation's ability to produce next year, said Mr. Rodemer.

Engineers recently proved scientifically that glass is some 200 times smoother than satin and about 475 times smoother than silk.

## Better Than Meal

Small Boy Sacrificed Lunch Money But Got Big Thrill

The late Sidney Gedge, for many years solicitor to the London School Board, when over 90 said that as a little boy of nine he came up to London to spend a holiday with relations.

In the casual manner of the times the child was sent out to amuse himself as best he might, with a shilling in his pocket for his meals. Strolling into Trafalgar Square he found the newly erected Nelson column still festooned with scaffolding, and watching his opportunity to evade the workmen scrambled up the ladders. But he reckoned without the monumental masons, for when he emerged on the top of the column there they were, and there lay Lord Nelson, not yet erect upon his feet.

The men were angry, and said that he must "pay his footing." So he was forced to hand over his shilling. "But," Mr. Gedge added, "I said to myself I was going to have something for my money, so I stooped down and kissed the face of Nelson. I think he felt the elation was worth the subsequent hungry afternoon."

## LONGEST NON-STOP RUN

The world's longest regular non-stop railway run is that between London and Edinburgh, 293½ miles, and the second from London to Cardiff, 293 miles, according to British Railways.

To Feel Right — Eat Right!

## Not A Bad Idea

Might Be Wise To Have Occasional Fire Drill In Home

There have been so many fires in homes during the past few months in which lives of adults as well as children have been lost that the question suggests itself: Why not have fire drill in the house?

Every passenger in an Atlantic liner has to undergo simple life-saving drill and instruction on deck the second day out so that they may know what to do and where to go just in case. The danger of fire in a home is greater than the danger of being in a shipwreck, yet few, if any people, think of figuring out what they would do if the house caught fire. An occasional drill in the home might save many lives, because so many people who have been overcome by smoke and suffocated or burned to death, do so because they became panicky and did the wrong things.

The usual thing is to make a dash for the main staircase, whether in home or hotel, and invariably people who escape fires report that they found their way barred because flames were creeping up the stairs. This is due to the scientific fact that the open staircase attracts the superheated air and gases from the seat of fire and the staircase itself is one of the first things to burn.

The cautious household will study the situation, make for the back door or a side door if the way is not barred by fire, and in the last resort make for a window where there is a veranda, kitchen or woodshed where they can stand and await rescue if it is too high for a leap to the ground. —St. Thomas Times-Journal.

## Is Losing Out

Doctor Predicts Penicillin Will Become Useless For Some Diseases

Penicillin is losing its punch so rapidly that it was predicted this wonder drug may become almost completely useless in a few years for some diseases.

The trouble is not in penicillin but in special strains of germs, present in many diseases, which are able to resist penicillin, and which are spreading rapidly while their fellows are being destroyed by the drug.

The production was made by Dr. Hans Molitor, of the Merck Institute for therapeutic research, in a report to the federation of American societies for experimental biology.

## PLASTIC LINKED SHIP

A big future is expected for a new structural material produced by the British plastics industry. This material, known as holoplast, was used in the first plastic-hulled ship, the Empire Antigua, launched from the Tyne-side recently. Holoplast makes a perfect boarding for a ship's interior, and is being destroyed by the drug. The production was made by Dr. Hans Molitor, of the Merck Institute for therapeutic research, in a report to the federation of American societies for experimental biology.

The housefly vibrates its wings 20,000 times a minute.

## THIS CURIOUS WORLD

By William Ferguson

IN 1800, 6 PER CENT OF THE UNITED STATES POPULATION OF SEVENTY FIVE MILLION WAS OVER 60 YEARS OF AGE! BY 1950, STATISTICAL FIGURES ESTIMATE A POPULATION OF ONE HUNDRED FIFTY MILLION, 23 PER CENT SIXTY YEARS OR OLDER.

WHERE'S ELMER?

NOTE how the only spot in the United States where four states touch yours. Private Elmer!

MOST BIRDS FLY AT AN ALTITUDE OF AROUND 1000 FEET WHEN MIGRATING.

ANSWER Where Colorado, New Mexico, Arizona and Utah meet.

## OUR COMPLETE SHORT STORY—

### Constant Reader

By PHIL GLANZER

Copyright  
Wheeler Newspaper Syndicate

GERRY DOHERTY stood in the doorway of an automobile on the west side of Times Square and gazed steadily across at the Palace. The theatrical trade sheets used to say that when you had played the Palace you had made Broadway.

Gerry felt funny inside as that thought flashed through his mind, his lips tightened as he remembered the night a few seasons back when he stood in this same doorway and thrilled at the sight of his own name in the electric lights of the Palace marquee.

His mind lagged. He leaned against the building and got to dreaming. Two shows a day in those years, opening Monday matinee. He remembered how nervous he was on his first date at the house. Monday matinee was when all showfolk in productions on Broadway and every ace vaudeville performer who could make the date, dropped in to "catch" the show. Also there were agents who could snap up an act for a production or offer 40 to 50 weeks looking on another circuit.

Gerry, doing a single, had been assigned the toughest spot on the bill, No. 2 spot. And the heart jumped clean out of him when he heard his cue music on that Monday afternoon.

But his feet didn't go back on him, he gritted his teeth and at the first murmur of approval went into a routine that completely stopped the show. On Monday night he was moved to next to closing so that the show would not be stopped before the headliner came on.

The people from the subway circuit dawdled over their coffee and tried to recollect if this hoover had ever played a bill with them anywhere. He was going up and he'd be a good guy to know. The Broadway columnist paragonized about him and steered him into Sardi's, or Lindy's or the Hollywood for a gagfest, Gerry Doherty had clicked!

It was only a few weeks later that he again played the Palace, strutting out in front as the big feature of a "flash production act" on at 9:45 at nights, 3:00 at matinees—billed big and headlining the show. Even when the agents and the chattering back-stage friends who knew him had got their each week he was still in the big money and it was inevitable, perhaps, that he should meet and fall in love with Gloria Templeton, one of Broadway's biggest stars.

He didn't know that the syndicated columns turned out by the New York gossip columnists carried that news to little Irene Sumner back in Madison, Wisconsin.

He didn't know that the kid who used to sit happily out front on amateur nights at The Happy Hour Theatre and the Starland and the Triangle and applaud his footlight starts, and tell him how wonderful he was later when they were walking down that silent tree-lined street, cried herself to sleep the night she read a flippant observation of Arthur Allison in the News-Review: "Gerry Doherty, whose dance review on the current Palace bill is being the show in knots and Gloria Templeton, star of 'Dusty Horizon' at the Belmont are that way about each other."

Nor did he know, at that time, that hoovers and dramatic actresses make queer teams when fettered by matrimonial harness. But he knew later, and strangely enough, it had been Arthur Allison who informed him and the whole world with a brief line: "Gloria Templeton, Gerry Doherty's Ex, whose decree became final yesterday, and Raymond Taner, heir to the Department Store millions, will tell it to a preacher before next day."

Gerry's world had fallen from under him then. Talkies came in and vaudeville went out and hoovers, good and bad, came at a dime a dozen. From his apartment, which was located on Central Park West, he moved to a Times Square hotel. He kept that up as long as he could but with no bookings and little heart for work anyway, he had ended up in a theatrical rooming house over on 47th near 9th avenue.

That thought brought him out of his dreams. Two weeks in arrears on rent and 25 cents left to his name. A fine dizziness had set in and Gerry started across the Square toward Silver's Coffee and cakes and maybe a pal who had "touched" him when he was in the money.

At the 46th he waited for the flow of cross-town traffic. The lights flashed and Gerry stepped from the curb. As he did, a racing taxi, trying to beat the light, pulled up with a scorch of brakes. The wet pavement was like ice to the rubber and the car skidded sideways. A girl screamed and things went black for Gerry.

Unknown to Gerry, Arthur Allison's column hit the streets that night with a line: "Gerry Doherty, once Broadway's ace hoover, is in Polytechnic's public ward—without funds. Perhaps some of his former pals would like to know." Broadway read that column, and let it be said for show business that three of his "former pals" kicked in. But a fourth former pal, who read the column three days later in Madison, didn't kick in. She took the first train out for New York and a new light shone in her eyes.

Gerry cried when Irene walked in on him, but the columnists didn't know about that. The last they heard of Gerry was that he had married some dame from Madison, Wisconsin, and was running a cigar store out there. They didn't even bother printing it. Gerry wasn't news any more running a cigar store in Madison.

But because Arthur Allison is still read by Irene and Gerry it will be nice if someone would tip him off to mention in his column that "The Gerry Doherty's are tiny garment-shipping."

**Cannot Go Alone**

Tourists Compelled To Take Guide When Exploring Jasper Park

It is a rule in Alberta's Jasper Park never to leave a man in the mountains alone. Fred Brewster, a pioneer Jasper guide and a Rocky Mountain oracle, lays down the law on this point.

No one has been lost yet, but with 6,755 square miles of forested parks and 11,000 foot peaks for tourists to explore, Alberta authorities take no chances. A veteran mountain man finds no terror in being alone in the wilds, but he knows the trick of caring for himself, and few tourists possess this knowledge.

**WILL FLY HER OWN**

A new civilian air base at Larder Lake, Ont., now is the centre of civilian flying operations helping to open up a vast new world of mining possibilities. Some prospectors fly their own machines. And, ready to back this last masculine stronghold is Miss Mary Ramsay of Kirkland Lake, who hopes to get her private pilot's licence soon.

## Makes Young Mothers Smile!

Modern Way Relieves Miseries of Colds Pleasantly—During Night

Today, the modern way most mothers use to relieve miseries of colds is to rub Vicks VapoRub on the throat, chest and at bedtime. Results are so good because VapoRub...

**Penetrates** deep into cold-irritated bronchial tubes with its special, medicinal vapors.

**Stimulates** chest and back surfaces like a warming poultice.

**Then For Hours** VapoRub's special action keeps on working, invites restful sleep. Often by morning most of the misery of the cold is gone!

**Home-Proved** by millions of users, VapoRub's special penetrating-stimulating action works just fine. So be sure you get the one and only VICKS VAPORUB.

**Praised For Work**

Speech Therapist Is Helping Veterans At Toronto Hospital

It takes much patience and understanding to do Margaret McCurdy's work at Christie St. Hospital in Toronto. But the young Montreal-born speech therapist has won praise from both doctors and veterans alike for the help she has given aphasic patients at the hospital.

Miss McCurdy is the only speech therapist in Canada working for the Department of Veterans Affairs. In her "classroom" at Christie Street are some speechless veterans, some unable to read or write and a few who cannot understand speech.

A mirror plays an important part in her classroom. Standing before the mirror the patient sees how he forms his lips for words, guided by Miss McCurdy.

Twenty-four-year-old Tommy, a private in the 4th Highlanders, was knocked back into infancy when he was shot in the left side of the head during the fighting in Holland. Today thanks to Miss McCurdy he can speak again and is learning once more how to read and write.

**Fitted Apron**

Can be made from feed bag

By ANNE ADAMS

A gay apron that fits well, gives ample coverage, sews up quickly! Pattern 4586 requires little fabric. In fact, if you've a grain of feed bag you can make it from that!

Pattern 4586 comes in sizes small (32-34), medium (36-38), large (40-42). Small size 1 1/2 yards 35-inch. Send twenty cents (20c) in coins (stamps cannot be accepted) for this pattern. Write plainly name, address and style number and send orders to the Anne Adams Pattern Dept., Winnipeg Newspaper Union, 175 McDermott Ave. E., Winnipeg, Man.

In reading, our eyes concentrate on the tops of the printed words.

## Nasal Irritation

## SOMETHING NEEDED

Motorists Would Welcome Car Better Suited For Canadian Climate

"Why don't some of the auto makers produce a model that's properly fitted for a climate like Canada's?"

We had often wondered the same thing, but not until a prominent engineer let loose the above lament the other day have we dared mention it. It was pointed out that the car makers have never hesitated about adding to the number of models but that not one of all the scads of models was ever tailored particularly to a climate like Canada's.

Here are some of the items suggested by the engineer: A different cooling system to get rid of split radiators and the long bother of anti-freeze.

Why not better interior heating systems—built-in and "engineered-in" heaters; defrosting and windshield wiping systems that do a complete job and wipers that will wash off mud. There could be better insulation of the body and better protection of running gear, brakes, etc., against water, ice, grit, etc. Trunk and door design that won't hold water, hence freeze up tight, is another of our engineer's requests.

Since the motor men are getting this suggestion we add another here: Some car designer is going to endeavor himself to millions when he turns out an interior that can be kept clean—not spottish, not necessarily tidy as a drawing room—just a little cleaner than a pigsty.

Present car interiors may be all right for the folk with chauffeurs and for those who can or will spend half of every day wiping and brushing and rooting into the almost-impossible-to-get-at places inside the body.

But the rest of us will have garlands of purchase orders for the designers who do something for the driver, who, most of the time, does his own automobile "house-work." Financial Post, Toronto.

**GARDEN**

NOTES

**Showy Flowers**

An amazing showing can be made with a few flowers. Cosmos, giant marigolds, zinnias, petunias, portulaca, nicotiana, calendula, alyssum, nasturtiums, etc., are easily grown almost anywhere in Canada. Some of the larger flowers can actually be used in place of shrubs. Seeds can be sown early and in finely prepared soil. Plants are transplanted to permanent quarters when the soil is well covered with several sets of leaves. Ready started bedding plants can be bought. For husky growth, cosmos, gladiolus, dahlias, giant marigolds and zinnias should have about two feet each way—petunias need about a foot apart.

**The Handy Plot**

The old-fashioned kitchen garden had a lot to recommend it. This is the small plot of ground, perhaps only a few feet square, right at the door. In this position it is handy, especially when one wants to get a few onions or lettuce in a hurry, and it is an amazing thing how much can be produced on a small space.

As a matter of fact, for the average smaller gardener it is best to grow beans, lettuce, radish, carrots, etc., in rows close together in a kitchen garden of this kind rather than in longer rows out in the main garden. The latter, of course, is used for big, bulky crops like corn, potatoes and peas and possibly the main crops of beans, but the heavily planted, rich cultivated kitchen plot near the house is an ideal location for the other stuff. Located close to the house one can often spend odd minutes in cultivating and weeding when it would not be practical to make a trip out into the big garden. Whenever possible, this kitchen garden should be located where it can be watered in very dry weather.

**Not Too Soon**

There is always one spot in the garden which dries up first in the spring and here, if one wants to make the earliest start possible, is where first vegetables or flowers should be planted. But it is most important, the experts warn, that the soil is really fit to work. If it is muddy then it isn't ready and there is nothing to be gained if digging or plowing is done too soon. Heavy soils especially if cultivated while still wet will bake into hard lumps and it may take weeks or even months of hard, back-breaking digging to break them up again.

A good test to make sure that the soil is ready is simply to walk over the ground where one plans to plant. If the soil muddies the boots then it is too wet. If it shakes off readily or if it crumbles when squeezed in the palm of the hand, it is fit to work.

Experienced gardeners advise cultivating as thoroughly as possible before planting. The reason they emphasize this early digging, especially in ground that has not been cultivated every year for some time, is to get rid of twigs and other weeds. It is much easier to clean these pests out by the roots before they get a head start than it is to wait, if it shakes off readily or if it crumbles when squeezed in the palm of the hand, it is fit to work.

Surfaces, which reflect none of the sun's rays appear black. Surfaces that reflect some of the sun's light rays appear white.

## CANADIAN CURLING SUPREMACY

THE MACDONALD BRIER TANKARD WON BY SEDGEWICK, ALBERTA, CURLERS

**THE SEDGEWICK FOUR**—Left to right: Austin R. Smith, second; Bartley Swelin of Hughenden, third; Billy Rose, skip; George Crooks, lead

A veteran Alberta four skipped by Billy Rose won the Macdonald's Brier Tankard, emblematic of Canadian curling supremacy, by beating a stubborn northern Ontario rink from Kirkland Lake 8-6 in an thrilling match as the roaring game has seen in many a 'spiel.

In posting Alberta's fourth victory in 17 years of Brier hospital play, Rose and his men of Sedgewick—George Crooks lead, Austin Smith second and Bartley Swelin third—took the hard road.

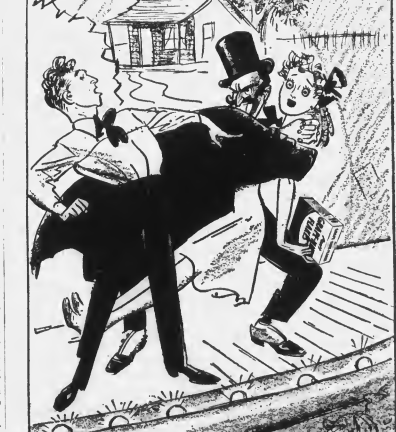

They wound up in the regular nine-game round robin play with seven victories and two defeats—enough to put them in a tie with the highly-favored Manitoba champions and northern Ontario for first place. They barely edged out Ontario 10-9 for the seventh win.

But the Alberta champions—three of them come from the little community of Sedgewick with a population of 500 and Swelin from the nearby village of Hughenden—drew on courage and the 15 years' curling experience each of them had when the play-offs came up.

Displaying the most perfect curling of the bonspiel, they eliminated Manitoba 8-7 in the semi-final—revenge for one of their two defeats in regular play—and then triumphed in the final. With uncanny repetition Rose in those two games played knockout and draw shots dead on time after time.

Tommy Ramsay's Kirkland Lake quartette went into the 11th end even terms with the Alberta representatives. The rinks had posted no score higher than a two and few of those up to that point.

But on the 11th Rose almost made sure of his championship. He had in the house when Ramsay's last stone drew in to better five of them and leave him with only a single. The last end was just as tense.

**"Have a care Jack Dalton! Unhand that package of crisp, crunchy, delicious Grape-Nuts Flakes!"**

"Curse! Filled again! Every time I try to make off with some malty-rich, honey-golden Post's Grape-Nuts Flakes I'm stopped by this guy's curly crop!"

"And why not? That's a nut package you've got there. Those Grape-Nuts Flakes supply carbohydrates for energy; proteins for muscle; phosphorus for teeth and bones; iron for the blood; other food essentials."

"Hand over that giant economy package, vite. You're a bit with myself when it comes to Grape-Nuts Flakes!"

## LOCAL NEWS

Born: To Mr. and Mrs. Jack Nelson on Wednesday, March 27, a son.

Mrs. Violet Borsato, of Lethbridge, visited relatives here last week.

Mr. Dan Kolesnik, of Vancouver, arrived in town on Monday to visit relatives here.

Born: To Mr. and Mrs. Joe Colombo, on Saturday, March 16, a son.

John Salus returned home on Tuesday morning after having secured his discharge from the army.

Mrs. Elton Hutton and daughter, of Kimberley, are the guests of the former's parents, Mr. and Mrs. Jack Nash.

Mrs. Sid, Emery was admitted to hospital on Monday evening, undergoing an appendicitis operation that same evening.

Mr. and Mrs. O. Bombien visited at Calgary recently where they visited their son Joe DeLuca who is a patient in the Belcher hospital.

Newly-weds Mr. and Mrs. John McGregor, nee Dorothy Gate, of Calgary, are the guests of the latter's parents, Mr. and Mrs. Wm. Gate.

Contractor O. Celli was busy during the latter part of last week placing brick siding over the front of the Gentile building on main street.

While enroute to Australia Miss May Ramsay stopped over for two days at Vancouver where she was the guest of Mr. and Mrs. A. Irvin. While in the city she visited one or two former Colemanites.

William Naylor is spending a holiday with his sisters at Nelson. The Journal acknowledges with thanks renewal subscription received from Miss Elizabeth Beveridge of Vancouver during the week.

### MRS. GEORGE BURTNIK HONORED AT SHOWER

Coleman's War Brides' Committee sponsored its first miscellaneous shower on Wednesday, March 20, in the IOOF hall in honor of Mrs. George Burtinik.

Approximately 60 guests assembled and spent an enjoyable evening playing whist and bingo. Whist winners included Mrs. Steve Penney, Mrs. Lewis Brown and Mrs. Bill Bareski. The winner of the Bingo game was Mrs. George Burtinik.

Lunch was then served by the committee after which the honored guest was presented with a basket laden with gifts. Mrs. Burtinik expressed her gratitude for the kindness shown her. The party then broke up shortly before midnight.

### CARD OF THANKS

I am taking this opportunity to thank the War Brides' Committee for the shower they held in my honor, also everybody for the lovely gifts I received.

Iris M. Burtinik.

### WEDDINGS

McGregor—Gate

The Pro-Cathedral Chapel, Calgary, was the scene of a pretty wedding on Thursday, March 21st, at 6 p.m. "Dean Smythe" officiating, when Dorothy Elizabeth, daughter of Mr. and Mrs. W. M. Gate, became the bride of John Henry, youngest son of Mrs. and the late Mr. J. G. McGregor, of Calgary. Mr. and Mrs. A. Starr of Calgary were the attendants.

Following the ceremony a reception was held in the Brentwood Room of the Empress Grill. Both Mr. and Mrs. McGregor recently received their discharges from the Canadian Army.

The couple will take up residence in Calgary where the groom is employed.

### War Brides Committee Notes

It is expected that brides of Coleman soldiers married overseas will be arriving in Coleman at an increased rate within the next month or two. In order that some points may be clearly understood we plan on taking advantage of this column to deal with them.

One point that has already caused a little misunderstanding pertains to the bride who has married a Coleman soldier overseas but, the latter, upon his arrival in

Coleman decides to make his home in some other community and leaves Coleman. He may have relatives here, and upon his wife's arrival brings her to Coleman for a holiday. Our committee has no authority to sponsor a shower in that bride's behalf. Only brides who will reside in Coleman are to be given showers by this committee.

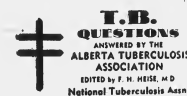

Another point that is still not clear is that it is the groom's mother or close relative that are responsible for the invitation list. They submit the completed list to this committee who makes it its business to get the invitations in the mail. Anyone desiring an invitation need only contact the groom's mother or Mrs. Isobel Seaman, chairman of the Brides' committee who will promptly have an official invitation extended to them.

A third point is that all cakes (home baked) are the responsibility of the groom's mother, sisters and close friends. The brides' committee takes care of the sandwiches. The amount of home baked cake required for a shower is left entirely to the discretion of the groom's relatives and close friends. The tea and coffee is also taken care of by the committee.

An embarrassing point that can be eliminated is the one where the committee members interviewing a family preparatory to sponsoring a shower are asked to bring a cake. Thought should be given to the fact that these committee members are sponsoring the shower which requires much work. A hall has to be rented, invitations sent out, sandwiches ordered, fires lit, tables

decorated, serve the lunch, and then start in and wash a miniature mountain of dishes, which, by the way had to be rented. Asking cake on top of these other services is really asking a little too much.

The committee plans on sponsoring a series of these war brides' showers and only asks the co-operation of citizens who may have to play major roles in helping the showers to be successful.

Q. When I had my chest X-rayed they told me I had thickened pleura. What does that mean?

A. Thickening of the lining of the chest wall or of the coating of

the lung. This may improve with time.

Q. I had pleurisy with effusion a year ago. Recent X-ray shows two small spots on the left side; also a shadow from fluid at the base of the lung. I still have pain with a deep breath. Would that be adhesions, and will they clear up?

A. The pain could be due to adhesions, and may or may not disappear. You may have occasional pain for years.

YOU'LL BE DELIGHTED with the superb flavor of Maxwell House Coffee. It's blended by experts from extra-flavor coffees — the finest obtainable—to give you complete coffee satisfaction.

## Spring Cleaning?—Yes!
